

WEDI Charter Provider Information Subworkgroup

PURPOSE

The purpose of the Provider Information Sub Workgroup is to:

- Create education materials
- Identify current provider information exchange requirements and uses
- Conduct webinars and workgroup sessions
- Address identified business needs/issues from various stakeholders and their perspectives related to data exchange of provider information
- Cross industry collaboration with payers, providers and other stake holders

SCOPE

The responsibilities of the Provider Information Sub Workgroup include:

- Adherence to all WEDI policy and procedures
- Reporting up to the Data Exchange Workgroup monthly using the appropriate templates
- Create an environment conducive for multiple partners to engage in a dialogue related to the successes, requirements and challenges associated with the exchange of current, timely, meaningful provider data, work process flows, best practices etc.
- Provider information may include: demographic, scheduling, clinic data, panel size, licensure, etc.
- Document, build upon and share those achievements (white papers/webinars) to aid in the overall success within the industry and increase of satisfaction/experience by the members.
- Identify business issues impacting the transmission and receipt of provider practice information
- Outline Federal and State regulations for example MAO/QHP
- Engage Provider's practice staff in the collection of their practice information
- Collect and share status of National or State initiatives as well as provide collective input to these entities.
- Develop industry best Practices for Provider practice information exchange

OUT OF SCOPE

The Provider Information Sub Workgroup activities do NOT include:

- Create or implement technical solutions related to the collection of provider data
- Clinical data
